The question asked seems to be about renown (43).

Fresh White is questioning its future, consciously or not, in relation of what it will bring to others, and the impacts others will have on the company. How Fresh White will develop depends, among other elements but above everything, how others will receive it and crown it.

Chance - Miracle - Protection - Power, the Blue Card (B) allows Fresh White to turn and reverse any misfortune or suffering, anything against its wishes. The draw could stop here: this card inverse or cancels the other, in accordance to the company's drive.

The counter card (44), weakened or weeded out by the Blue Card, is fate ("Le Hazard"). To Fresh White, chance does not exist, nothing is created nor destroyed by it. No God's gifts, no accidents. What will happen to Fresh White is what Fresh White will build (unless wished otherwise: the Blue Card... again).

The energy that dominates Fresh white is one of the Sun, "L'Elévation" (6). The company is caught in energy pulling upward, to the heat. Its pyramidal shape pushes White Fresh to rises.

The final answer is wisdom, "La Sagesse" (42). Smiling and crowned, wisdom is what Fresh White will bring in its finality. This is Saturn, meditation and inner strength.

What brings together these energies is Mercury and its lucidity. It is the intelligence (20), what will remain written, printed, archived and kept in a protected collective knowledge.
